FINANCES

As you are all aware our income for the churches have almost been completely stopped, but the bills still need paying. Both our churches are now running exceptionally low on financial resources.

The central offices of the Church in Wales have managed to liquidate some assets to help and Wrexham will be receiving a grant soon to assist us.

However, many of you still give via envelopes and many of you are very good in backdating your envelopes. These must be building up now. We desperately need to pay this money, and I don't want too much cash building up in your sideboards.

If you are able, could you arrange to drop off any envelopes into the vicarage so we can pay the money in. Or phone me for me to arrange a time to come and collect.

BUT EVEN BETTER

It would be even better if you would consider giving via direct debit or if you would consider increasing your giving if you have the means to do so. This would ease the financial cash flow so much for our churches. To set up a direct debit or adjust your giving please visit:
